

# AFA FISH TAGGING

**For this program's success, we are reaching out to all "ANGLERS to JOIN IN and help the AFA collect valuable information that will benefit the Lake Almanor fishery.**

AFA will tag 500 fish Annually (browns/rainbows). Each year the tags will be a different color with a 4-digit number and a phone number. You may enter information online at [Almanorfishingassociation.org](http://Almanorfishingassociation.org) or you may call 530-284-0861. You can report a tagged fish whether you keep it or release it.

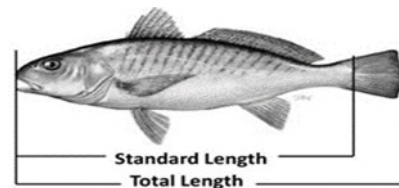

**All reporting parties will be entered into a drawing in December 2020.**

**10 winners will be drawn...Need not be present to win.**

## Tips for providing the best information when you report a tag:

- **Be Alert !**
- **Get the tag number!** You don't have to remove the tag if you're going to release the fish alive, just write down the tag number or take a photo.
- **Measure the fish !** Total Standard Length; from the tip of the snout to the end of the fleshy part of the tail.
- **Report each tagged fish caught.**
